

MASKI REVESTIMENTOS  
2020

## **2 0 2 0**

O nosso sonho é fazer parte da sua história.

Nossa coleção 2020 é composta pelos inovadores apliques espelhados em diversos formatos geométricos, que permitem explorar os ambientes de forma única e sofisticada.

Com design autoral e patenteado, os revestimentos da Maski são produzidos em Concreto de Alto Desempenho (CAD) de forma sustentável, sendo versáteis e adaptáveis a todos os tipos de ambientes e projetos.

Somos a primeira e única empresa a oferecer toda a Paleta SelfColor Suvinil como cartela de cores dos revestimentos, que são pintados manualmente em nossa fábrica.
